

# Are you getting the most out of your ATM?

Our ATM program is a superior product compared to our competitors. With free 24/7 technical support, cutting-edge reporting tools, and free remote monitoring, our ATM program is in a class by itself.

## Did you know the starting price of an ATM is only \$2,400?

Most convenience stores have their ATM paid for in less than a year!

## Did you know the average convenience store does 250+ ATM transactions each month?

Studies have shown out of 100 people who walk by an ATM, four will use it.

## Are you receiving your money the next business day?

We deposit your vault cash and surcharge income the next business day unless you would rather be paid monthly.

## Are you able to customize your ATM screen at no cost?

We can load any image you would like to your ATM. Some people want their store's logo, while others want an advertisement or picture. We'll load it for you, and we'll do it at no cost.

## Are you making 100-percent of the onscreen surcharge with a small processing monthly fees?

Merchants who own and load their ATM in our ATM program make all of the onscreen surcharge minus a 10-cent processing fee on all surcharge withdrawal transactions. We don't charge you interchange fees!

## Do you have a bank ATM?

### Are you being compensated fairly if at all?

Is the bank paying you for your floor space and power? If not, think about getting your own ATM. With an average income of \$2.50 on each withdrawal transaction, the average convenience store makes \$625 per month on its ATM.

## Do you have access to ATM reporting so you can monitor how well your ATM is doing and how much money you're making?

With us, you'll have access to online reporting to run up to 800 different reports. Plus, we also have a mobile app that gives you all this power in the palm of your hand.

## Does your ATM have the ability to do cardless transactions?

We believe in technology. Therefore, we have software allowing ATMs the ability to do a transaction without ever inserting a card.

## Are you locked in a long-term contract?

Industry standard ATM contracts are 7-10 years. We believe that's way too long. We only use short-term contracts to ensure you're getting the service you deserve!

## Does your ATM do currency conversion to accommodate visitors from outside the U.S.?

Our ATMs do Dynamic Currency Conversion which shows the customer how much money they are withdrawing from the ATM in his home currency. Plus, you make an extra 1% of the withdrawal amount on top of the onscreen surcharge.

**Premier  
Merchants  
Group, LLC**

## We can customize an ATM program that suits you.

We know every business has different needs. Therefore, if you're not interested in purchasing an ATM, but would like one in your business, give us a call and we'll do our best to customize a program that works for you.
